ABOUT ME

I'm currently pursuing my BCA degree at Nagarjuna College of IT. What really excites me is creating appealing websites and designs as a front-end web developer.

I'm fully dedicated, to honing my skills in front end tools to build user friendly websites. Apart, from coding I also have a desire to impart my computer science knowledge as a teacher.

EDUCATION

Supreme Academy Higher Secondary School

- Cumulative **GPA: 3.6**

Chanakya College of Management

- Cumulative **GPA: 3.75**
- Chosen Course: Computer Science (CS)

Nagarjuna College of Information Technology

- Bachelors in Computer Application – ongoing,
- 4 years degree

COURSEWORK

- Computer Fundamentals (MS-Office)
- Front-end Web Technology (HTML, CSS, Tailwind CSS and ReactJS Framework)
- Programming Fundamentals (C, JavaScript)
- Computer Networks (Networking Concepts, Router Configuration)
- Operating Systems (Windows, Linux)
- Database Management System (MySQL)

CODING PLATFORMS

- Front-end Mentor: [Front-end Mentor Profile](#)
- GitHub: [GitHub Profile](#)
- CodePen: [CodePen Profile](#)

PROJECTS

[Vicky Art Station](#) | ReactJS and Tailwind CSS Front-end Framework

- My First real-world web project developed for a small business, fully responsive and focusing on an engaging, user-friendly experience across all devices.
- This site features primary pages including home, about, services and contact for business information.
- The design is minimalistic yet prioritizes accessibility, ensuring all users can easily navigate and find information they need.

[Euro School Website](#) | HTML and CSS

- A website for Euro School is created as a school assignment mini project.
- The website features essential sections including home, about, gallery and contact for providing detailed information about Euro School.
- Built with beginner-friendly HTML and CSS code for newcomers to web technology.

[Flavorwave Cafe Website](#) | HTML, CSS, JavaScript and jQuery

- My first project, fully responsive, built after getting started with HTML and CSS.
- Added JavaScript and jQuery for interactivity.
- Highlight sections like home, about, products, app and contact for cafe's details.

[Jessica's Salon Website](#) | HTML and Tailwind CSS Framework

- Built a simple homepage to showcase my first project with Tailwind CSS.
- Highlights the easy-to-use CSS properties provided by Tailwind CSS.

[CodeSquad Group Website](#) | HTML and Tailwind CSS Framework

- Made website to teach my BCA junior batch about Tailwind CSS Framework.
- Highlights only on home page to demonstrate quick website creation with Tailwind.

[Newsletter Sign-up Form](#) | ReactJS and Tailwind CSS Framework

- Completion of challenge on Front-end Mentor coding platform.
- This mini project highlights the use of simple sign-up form layout with responsive with validation and success message pop-up in ReactJS.

EXPERIENCES

1. Online Tutor for 9th Grade Student – Basic Website Creation (1 Week)

- Taught fundamental concepts of HTML, CSS and basic web design.
- Guided about importance of responsive design in website.
- Created [Euro School Website](#) as a mini project assignment.

2. Instructor for BCA Junior Batch – HTML and Tailwind CSS Framework (2 Months)

- Delivered hands-on training on HTML and Tailwind CSS to a group of junior BCA students within the college premises.
- Guided students through responsive web design principles and helped them build projects using Tailwind CSS.
- Created [CodeSquad Group Website](#) as a project.

SKILLS

Technical Skills

- Version Control: Git and GitHub
- Web Development: HTML, CSS, JavaScript
- Design Tools: Canva and Adobe Photoshop (Basics)
- Editing Tools: Adobe Lightroom and Picsart
- Frameworks: ReactJS, Tailwind CSS

Soft Skills

- Leadership and Mentoring
- Communication
- Teamwork and Collaboration
- Public Speaking

CERTIFICATIONS

- Certificate of Achievement - ranked 2nd Position at **Public Speaking Competition**, organized by **Chanakya College of Management**
- Certificate of Participation - **Chatbot** Creation Workshop, organized by **PCPS College**
- Certificate of Completion - 3 months course on **Computer Fundamentals and Designing**, organized by **Tridev Pixel Computer Land** institute
- Certificate of Participation - Attended Mini Seminar on **Digital Marketing**, organized by **Nagarjuna ICT Club**
- Certificate of Course and Project Completion - **MERN Stack Development**, organized by **Evolve IT Hub Nepal**
